Five for Food 2020 Even Bigger and Better

Bruce Carlstrom (right) of the Greater Lake City Community Foundation receives a Five for Food sponsorship check from Dave McCormick of the Lake City Masons.

Five for Food, an initiative of the Greater Lake City Community Foundation for the Lake City Food Shelf, begins its sixth year during February and March. Sixteen sponsors have stepped forward with contributions from $500 to $1,000 for a total of $12,600. In the past, the sponsor funds are pooled to match contributions from $5 to $10. This year, contributions $5 and greater will be matched dollar for dollar up to the total of the sponsor's pool. The goal for 2020 is $26,000.

Five for Food sponsors in 2020 are The Greater Lake City Community Foundation, Fiesta Foods, Ardent Mills, Mayo Clinic Health System - Lake City, Lake City Federal Bank, Lake City Masonic Lodge, Lake City Rotary Club, Automation Services, Alliance Bank, Lake City Lions Club, Lake City Graphic, St. Mark's Episcopal Church, St. Mary's Knights of Columbus, St. Mary's CCW, Dean and Joanne Flugstad, and an anonymous donor.

Five for Food has raised over $102,000 in the past five years, which has allowed the Lake City Food Shelf to provide over $400,000 worth of food to those in need in the greater Lake City area. It is the largest source of donations each year.

The Lake City Food Shelf is an IRS recognized charity. Donations are tax deductible.

Make your contributions by check payable to the Lake City Food Shelf and mail them to The Greater Lake City Community Foundation, P. O. Box 86, Lake City, MN 55041.

A growing problem...

Salt Pollution

Minnesota has a growing salty water problem that threatens its freshwater fish and other aquatic life, chloride from both de-icing salt and water softeners gets into lakes, streams and groundwater that supply drinking water. It takes only one teaspoon of salt to permanently pollute five gallons of water. Once salt gets into water there is no easy or inexpensive way to remove it.

EVERYONE'S HELP IS NEEDED

Snow plow drivers already take specialized training to reduce salt distribution on public roadways, but help is also needed from business owners, property managers, custodians and private citizens to reduce the amount of salt used in water softeners, on sidewalks, driveways and parking lots.

EFFECTIVE WAYS TO REDUCE SALT USAGE

• A 12 oz. container such as a coffee mug full of salt is sufficient to de-ice a 20 foot driveway or 10 concrete sidewalk squares.

• Try to spread salt with approximately 3 inches between salt grains. Using a handheld spreader can help distribute salt evenly.

• Sweep up excess salt on dry pavement after ice has melted. This will prevent salt from washing into streams, lakes, wetlands, or groundwater.

• White stains on dry surfaces are telltale signs of using too much salt.

• Shovel early and often to minimize ice buildup which may require the use of excess salt.

• Newly designed scrapers available at hardware outlets can remove ice efficiently and prevent the need for salt.

WATER SOFTENERS REQUIRE SPECIAL ATTENTION

Salt discharged by water softeners is carried into waterways via sewage treatment facilities, which empty into lakes or rivers. Because these facilities cannot remove salt from the wastewater, it is important to minimize the amount of salt used in water softeners.

• Lake City's municipal water supply is rated at 17 grains. Adjust your softener to this setting if you have city water.

• If you have an older water softener adjust the timer for longer intervals between recharges.

• Consult a professional, if necessary, to adjust your softener for maximum efficiency.
