PMI Pepin Manufacturing Inc.
30 Anniversary

Pepin Manufacturing is celebrating 30 years!

Please come help us celebrate! **Join us on Friday, September 15 at our Lake City facility located at 1875 Highway 61 South for our company open house.** There will be tours every half hour from 9 a.m. to 10:30 a.m., free gifts, door prize and light refreshments! We look forward to hosting you!

Pepin Manufacturing Inc. (PMI) began in October 1993 in a 5000-square-foot building with just a few employees and a vision of what could be. At that time, product production took up most of the space where a single press machine created parts, and a machine shop in the next room helped to support that production and provided metal fabrication work. The spaces within PMI were multipurpose: the 12 ft. x 12 ft. assembly area also doubled as the breakroom. There were only a few employees at that time who sat around a folding table packaging parts to ensure on-time deliveries.

These dedicated employees, some of whom are still with PMI today, and the small space they worked in supported the growth of PMI. Over the years there has been exponential development. The team and machines outgrew buildings prompting expansions, more machines, supportive equipment, and personnel. Today we are pleased to say there are two locations, Lake City and Wabasha, and over 60 employees.

Although PMI has humble beginnings in the production of medical products, including electrodes for muscle stimulation along with many other medical products to support patient healing, PMI has expanded to not only support the medical industry but aerospace, national defense, industrial, and construction fields. We are the number one manufacturer and supplier of lint rollers to drycleaners in the USA. We sell urethane film to tool and die makers. And our largest division is in our converting department. We help our customers convert dreams into reality!

The growth of PMI is due to the steadfast and dedicated employees, and the confidence customers have in PMI to provide the best products and top-notch customer service. Later this year PMI will be building another addition to the Lake City location for continued growth and to expand services into the future. A sincere thank you to the employees, customers, and community for supporting PMI over the decades.

The PMI team can not wait to see all of you on September 15th!

Have you cleaned your dryer vent lately?

Professional dryer vent cleaning will significantly reduce the fire hazard caused by lint accumulation and will reduce the drying time of each load, saving you money on your utility bill.
It's time to clean your dryer vent if:
• Drying clothes takes longer and longer
• Clothing is hot or damp at the end of the cycle
• Your outside vent hood flap doesn't open properly
• The outside of your dryer becomes very hot
• You notice a burning smell when drying clothes
• It's been more than a year since your last inspection
