Sign up now for your
AIR DUCT CLEANING
We use all new state-of-the-art duct cleaning equipment!

Important Facts About Indoor Air Quality
• Most people spend 60-90% of their time indoors.
• The levels of some hazardous pollutants in indoor air has been found to be up to 70 times greater than in outdoor air.
• Studies have shown that two out of three indoor air quality problems involve the HVAC/Air Duct System
• One out of six people who suffer from allergies do so because of the direct relationship to fungi and bacteria in air duct systems.

Have you cleaned your dryer vent lately?

Professional dryer vent cleaning will significantly reduce the fire hazard caused by lint accumulation and will reduce the drying time of each load, saving you money on your utility bill.

It's time to clean your dryer vent if:
• Drying clothes takes longer and longer
• Clothing is hot or damp at the end of the cycle
• Your outside vent hood flap doesn't open properly
• The outside of your dryer becomes very hot
• You notice a burning smell when drying clothes
• It's been more than a year since your last inspection

Don't wait until it's too late, call Banks Heating today!

STIHL® EGO
Stihl products and service are exclusively at **Ace Rental Center**.
Our Stihl Certified trained technicians and sales associates can help you choose the right product for your needs, assemble your tools and teach you how to use them safely, service your equipment and sharpen your chains right here in the store.
Keep your equipment going by getting it regularly serviced, or if it's in need of a warranty repair. Our technicians have received extensive training for Stihl and can offer expert advice on the proper care and upkeep of your equipment.
EGO is an innovative manufacturer of battery operated outdoor equipment. With batteries becoming a popular option, EGO has become a go-to choice for homeowners. We are now an EGO warranty center and repair shop.
If you need any small engine work done regardless of brand, bring it in and we'll fix it.

THANK YOU NOTES

KENNEBECK

I would like to extend my sincere appreciation and gratitude to the Elysian staff, St. Croix Hospice and Zumbro Falls Fire Department. And a special thank you to Brian and Karen Walker from the Old Bank Bar for their generosity and thoughtfulness. I am thankful to you all and for all the kindness you have shown.

I would also like to thank my family and Dave's family for their help, love and support and to those who sent cards and attended Dave's Celebration of Life.

I am so very grateful. Thank you again.

Shirley Kennebeck 35-23p

ORDINANCE NO. 2022-1

ZUMBRO TOWNSHIP, MINNESOTA

AN ORDINANCE ESTABLISHING USE AND RATE REGULATIONS FOR THE RYAN'S BAY COMMUNITY WASTEWATER SYSTEM

An ordinance regulating the use of the Ryan's Bay community sanitary sewer treatment system (the "System"), establishing methods to charge for the System's maintenance and use, and providing penalties for violations of this ordinance (the "Ordinance").

Minn. Stat. §444.075 authorizes cities and towns to impose just and reasonable charges for the use and availability of sanitary sewer systems, including the System ("Charges"). By this section, Zumbro Township elects to exercise that authority with regard to the System.

The Township finds that holding tanks are illegally emptied upon occasion, which makes their continued use in the Ryan's Bay SSD to pose a danger to public health and safety. It also finds that the use of holding tanks or drainfield septic systems within 75 feet of Lake Zumbro poses a potential of harming its water quality to the detriment of the pubic. This ordinance is based in part upon these findings.

NOW, THEREFORE, be it ordained and enacted by the Board of Supervisors of Zumbro Township, Minnesota (the "Township") as follows:

ARTICLE I
Definitions

Unless the context specifically indicates otherwise, the terms used in this Article shall have the meanings hereby designated:

Sec. 1. "Act" - The Federal Water Pollution Control Act, also referred to as the Clean Water Act, as amended, 33. U.S.C. 1251 et seq.

Sec. 2. "Building Drain" - The sewer or system which conveys sewage and wastewater to the Building Sewer, beginning one (1) ft. outside the building wall and including all the "sewer" inside the building.

Sec. 3. "Ryan's Bay SSD" or the "SSD" - The Subordinate Service District area established by the Township's resolution of November 19, 2018 for the operation, maintenance, care and collection of money for the provision of sewage and wastewater treatment.

Sec. 4. "Representative" - The SSD's authorized representative, or the authorized representative of the SSD appointed by the Township Board of Supervisors.

Sec. 5. "Debt Service Charge" - A charge to Users of the System for the purpose of repaying capital costs of construction of and reconstruction of the System.

Sec. 6. "Industrial User" –

(a) Any entity as defined in the Standard Industrial Classification Manual (latest edition) as categorized, that discharges wastewater to the sewer.

Division A: Agriculture, Forestry and Fishing
Division B: Mining
Division D: Manufacturing
Division E: Transportation, Communications, Electric, Gas, and Sanitary Sewers
Division I: Services

(b) Any User whose discharges, singly or by interaction with other wastes:

- contaminate the sludge of the wastewater treatment system in a manner that injures or interferes with the treatment process;
- create a public nuisance or hazard;
- have an adverse effect on the waters receiving wastewater treat ment plant discharges;
- exceed normal domestic strength wastewater ("NDSW") limita tions; or
- exceed normal residential unit volumes of wastewater.

Sec. 7. "Infiltration/Inflow (I/I)" - Water other than wastewater that enters the sewer system from the ground or from surface runoff, as defined in the applicable Minnesota Rules.

Sec. 8. "MPCA" - Minnesota Pollution Control Agency.

Sec. 9. "Natural Outlet" - Any outlet, including storm sewers and combined sewers, which flows into a body of surface water or ground water.

Sec. 10. "Non-residential User" - A user of the System whose building is not used as a single-family private residence, and discharges NDSW. A building used both as a private residence and for other purposes, but that as further defined in Section VII has only one discharge connection to the System is a Non-residential User.

Sec. 11. "Operation, Maintenance and Replacement Costs" (OM&R) - Expenditures necessary to provide for the dependable, economical, and efficient functioning of the System throughout its design life, including operator training and permit fees. Replacement refers to equipment replacement costs, not the cost of future replacement of the entire facility.

Sec. 12. "Residential User" - A User of the System whose building is used primarily as a private residence and discharges NDSW.

Sec. 13. "Sewage" - means waste produced by toilets, bathing, laundry, or culinary operations or the floor drains associated with these sources, and includes household cleaners, medications, and other constituents in sewage restricted to amounts normally used for domestic purposes.

Sec. 14. "Sewer" - A pipe or conduit that carries wastewater or drainage water.

(a) "Building Sewer" - The extension from the Building Drain to the System, also referred to as a service connection, extending to the boundary line of the property parcel upon which the building sits.

(b) "Sanitary Sewer" - A sewer designed to carry only liquid and water-carried wastes from residential, non-residential, or industrial sources together with minor quantities of I/I.

(c) "Storm Sewer" – A sewer intended to carry non-sewage surface and subsurface water from any source.

Sec. 15. "Sewer Service Connection"- The pipe or conduit, tanks, and related facilities on private property and located between the building drain and the portion of the treatment facilities located within the public right-of-way. Related facilities may include, but are not limited to, grinder pumps and other hardware and materials located on the property and used to convey wastewater from the building drain to the treatment facilities.

Sec. 16. "Sewer Service Charge" - The total of the User Charge and the Debt Service Charge.

Sec. 17. "Sewer Service Fund" – The separate accounting kept and maintained by the Township of the monies collected through Sewer Service Charges and spent for OM&R and for repaying capital costs of construction and reconstruction of the System.

Sec. 18. "SSTS" - subsurface sewage treatment system or part thereof, as further defined in Minn. Stat. sections 115.03 and 115.55, that employs sewage tanks or other treatment devices with final discharge into the soil below the natural soil elevation or elevated final grade. SSTS also includes all holding tanks that are designed to receive a design flow of 10,000 gallons per day or less; sewage collection systems and associated tanks that discharge into SSTS treatment and dispersal components; and privies.

Sec. 19. "Slug" - A discharge of water or wastewater which in concentration or in quantity of flow exceeds for any period of duration longer than 15 minutes, more than 5 times the average 24-hour concentration of flows during normal operation.

Sec. 20. "Unpolluted Water" - Water of quality equal to or better than the effluent criteria in effect, or water that would not cause violation of receiving water quality standards including, but not limited to storm water, natural precipitation, groundwater or flow from roof runoff, surface runoff, subsurface drainage, down spouts, eave troughs, rainspouts, yard drains, sump pumps, foundation drains, yard fountains, ponds, swimming pools, cistern overflows, or water discharge from any air conditioning unit or system.

Sec. 21. "User" – Any person or entity that uses the System. If a person or entity other than the owner of a particular property connected to the System is an occupant or tenant of that property, both the occupant/tenant and the owner will be considered the User of the System.

Sec. 22. "User Charge" - A charge to Users of the System for the User's proportionate share of the cost of operation and maintenance including replacement (OM&R). User Charges will be considered service charges which may be assessed to the property upon which the particular sewer connection exists.

Sec. 23. "Wastewater" - Liquid and water-carried wastes from Users, together with any ground water, surface water, and storm water that may be present.

Sec. 24. "Sanitary Sewer Treatment System" or the "System" - The land, devices, facilities, structures, grinder pumps, and other equipment and processes owned or used by the Township for the purpose of the transmission, storage, treatment, recycling and reclamation of User wastewater, and the disposal of residues resulting from such treatment.

ARTICLE II
Control and Management of the Wastewater Facilities

Sec. 1. The Township, acting through its Board of Supervisors (the "Board"), shall have control and general supervision of all sewers and service connections in the SSD, and shall be responsible for administering the provisions of this Ordinance to ensure that proper and efficient sewer service is maintained.

Sec. 2. The Township may delegate the maintenance and repair of the System to qualified vendors and personnel (the "Operator"). Payment of these costs will be from the Sewer Service Fund.

Sec. 3. The Township may appoint a representative or representatives (the "Representative") to act as a contact person for Users, to assist in alerting the Township to maintenance and service needs, and to assist in contacting vendors for emergency needs. The Representative will at all times remain under the supervision and control of the Township.

ARTICLE III
Building Sewers and Connections Design

Sec. 1. No person(s) shall make any alterations to the System or any appurtenances thereof without first obtaining a written permit from the Township. No Building Drain shall extend beyond the limits of the building or property for which the permit has been given. Application for the permit will be upon the form provided by the Township through its Town Clerk.

Sec. 2. A separate and independent Building Sewer shall be provided for each building in the SSD. Old Building Sewers may be used to service new buildings only when they are found to meet all requirements of this Ordinance. Whenever possible, the Building Sewer shall be brought to the building at an elevation below the basement floor. In all buildings in which any Building Drain is too low to permit gravity flow to the System, wastewater shall be lifted by an approved means and discharged to the Building Sewer.

Sec. 3. The construction and connection of the Building Sewer to the System shall conform to the requirements of the State of Minnesota Building and Plumbing Code, applicable rules and regulations of the Township and the materials and procedural specifications set forth in the American Society of Testing Materials (ASTM) and the Water Pollution Control Federation (WPFC) Manual of Practice No. 9. All such connections shall be made gas and watertight, and verified by proper testing to prevent I/I.

Sec. 4. No unpolluted water sources shall be connected to the System.

Sec. 5. No new or replacement private SSTS may be constructed in the SSD, with the exception of SSTS permitted prior to passage of this Ordinance or those who need to create a compliant system because of an emergency situation prior to the start of System operation. Any property with an SSTS constructed under this Section will still be required to connect to the System at the time of its construction.

Sec. 6. All sewage originating from properties within the SSD must be directed to the System in accordance with this Ordinance. All properties within the SSD must connect to the System at the time of its construction. It shall be unlawful to construct, maintain, or use any SSTS or other private facility intended or used for the disposal of wastewater within the District once connection to the System is available, except for temporary portable toilets utilized during construction projects or emergency situations. No portable toilet is to be set in the road right-of-way or within 75 feet (horizontal) of the Ordinary High-Water Level of Lake Zumbro.

Sec. 7. Unimproved parcels not designated as included in the SSD but adjoining the SSD service area are encouraged to connect to the System upon construction of a dwelling. Inclusion in the SSD and connection to the System is highly recommended. Requests for inclusion in the SSD are welcome and should be directed to the Zumbro Township Board of Supervisors through its Town Clerk. Upon receipt, the Board of Supervisors will review the request to determine whether it provides sufficient information for consideration and request such additional information necessary to properly consider the request. Only when all such information is provided will the request be considered complete. Approval or denial of the request may require consultation with appropriate governmental authorities such as the MPCA, which will extend the time for decision by the Township. Grant or denial of the request will be in accordance with the requirements of this ordinance and Minn. Stat. Chp. 365A or such successive legislation as may be enacted.

Sec. 8. No new or replacement private septic systems, including but not limited to holding tanks, may be constructed in the SSD.

Sec. 9. The Township may suspend or revoke any permit issued under this article for any of the following causes:

(a) Giving false information in connection with the application for a permit.

(b) Incompetence of the permit holder.

(c) Willful violation of any provisions of this Article or any rule or regulation· pertaining to the making of service connections.

(d) Failure to adequately protect and indemnify the Township and the User (if different from the permit holder).

Sec. 10. Septic systems (other than the System) are prohibited from being located in the Township road right-of-way. Upon enactment of this ordinance, any such system must be moved by its owner, or it will be moved by the Township at the owner's expense.

ARTICLE IV
Use of System

Sec. 1. It is unlawful for a User to discharge Unpolluted Water into the System or maintain or establish an Unpolluted Water connection to the System at any time.

Sec. 2. In the event of discharges to the sewer of unpolluted water or which in the judgment of the Township may have a deleterious effect to the System, receiving waters, soils, vegetation, or which create a hazard or nuisance, the Township may:

(a) Refuse to accept the wastes.

(b) Require control over the quantities and rates of discharge.

(c) Require payment to cover all the added costs of handling, treating, and disposing of wastes not covered by existing taxes or sewer charges.

Sec. 3. No User shall increase the use of process water or in any manner attempt to dilute a discharge as a partial or complete substitute for adequate treatment to achieve compliance with the limitations contained in this Article, the National Categorical Pretreatment Standards, and any state or local requirement

Sec. 4. Grease, oil and sand interceptors shall be provided at the User's expense when, in the opinion of the Township, they are necessary for the proper handling of liquid wastes containing floatable grease in excessive amounts, any flammable wastes, sand or other harmful ingredients. All interceptors shall be readily and easily accessible for cleaning and inspection. The User shall be responsible for the maintenance of interceptors, including proper removal and disposal of the captured materials by appropriate means, and shall maintain a record of dates and means of disposal which are subject to review by the Township.

Any material removal and hauling must be performed by the User's personnel or a currently licensed waste disposal firm and in compliance with all applicable laws and regulations.

Sec. 5. Use of the System by Non-Residential Users and Industrial Users is prohibited.

Sec. 6. Where required by the Township, Users shall provide protection from an accidental discharge of substances regulated by this Ordinance. Where necessary, facilities to prevent accidental discharges of prohibited materials shall be provided and maintained at the User's expense. Detailed plans and operating procedures of said facilities shall be submitted to the Township for review and approval prior to construction of the facility. Approval of such plans and operating procedures shall not relieve User from the responsibility of modifying the facility as necessary to meet the requirements of this Ordinance.

Users shall notify the Township immediately if a Slug or accidental discharge of Wastewater occurs in violation of this Ordinance. The Township may by notice to Users appoint a designee for this notification. Notification will allow measures to be taken to minimize damage to the System. Notification will not relieve Users of liability for any expense, loss or damage to the System, or for fines imposed on the Township by any state or federal agency as a result of their actions.

Sec. 7. No person shall permit any substance or matter which may form a deposit or obstruction of flow to be discharged in to the sewer. Whenever any service connection becomes clogged, obstructed, detrimental to the use of the sewer, or unfit for the purpose of drainage, the User shall make repairs as directed by the Township.

Each day after 15 days that the User neglects to make said repairs shall constitute a separate violation of this Section. The Township may then cause the work to be done and recover related expenses from the User or agent by an action in the name of the Township.

Sec. 8. In addition to penalties that may be imposed for violation of any provision of this Article, the Township may assess against the User the cost of repairing or restoring Sewers and portion of the System damaged as a result of the discharge of prohibited wastes and may collect the assessment as an additional charge for the use of the System.

ARTICLE V

No person(s) shall willfully or negligently break, damage, destroy, uncover, deface or tamper with any structure, appurtenance, or equipment which is part of the System. Any person violating this provision shall be subject to immediate arrest and face the minimum charge of a misdemeanor, and such greater criminal charges as the amount of damage supports. The Township may also bring a civil action for recovery of the cost of repair of the damage, and will be entitled to its costs, disbursements and attorney's fees for collecting that cost against any person found to have violated this Article or the other provisions of this Ordinance.

ARTICLE VI
Powers and Authority of Inspectors

Duly authorized employees or agents of the Township, bearing proper credentials and identification, shall be permitted to enter all properties for inspection, observations, measurements, sampling, testing, repair and maintenance in accordance with the provisions of this Ordinance.

ARTICLE VII

Sec. 1. Establishment and administration of the Sewer Service Charge System.

There are two parts for the Sewer Service Charges: Debt Service and Operation, Maintenance, & Replacement Funds.

(a) Debt Service Fund. There will be the capital cost divided by the number of installations. The amount can be paid when notice is received (approximately November of the year construction is completed). A deadline will be established by the Township. Users who are the owners of a property connected to the System have the option to elect to have the Debt Service Charge placed as a line-item on their taxes for up to 20 years at 1.5% interest, if written notice of the election is timely provided to the Town Clerk in accordance with the deadline noted above. In that event, the amount due will be payable in full at any time, but not in larger incremental payments. This outstanding amount does not have to be paid in full at the time ownership of the benefitted property is transferred, but will be an obligation that attaches as a lien to the property transferred. This charge will be listed as a line-item on the tax statement and payable through the tax payment system.

(b) Operation, Maintenance & Replacement Fund. The amount charged to Users for OM&R will be determined after the project is designed and bid. It will then be set by the Township by Resolution for one year increments. The amount will be reviewed yearly in October to determine if the amount will still be adequate for the upcoming year. If the amount is determined to need adjustment, the Township will notify Users of the new amount due. This charge will also be listed as a line-item on the property tax statement and will be payable through the tax payment system.

Sec. 2. The Township hereby establishes two separate line items within the Sewer Service Fund: one for the Debt Service Charge payments and the second for the Operation, Maintenance & Replacement payments.

Sec. 3. Administration of the Sewer Service Fund.

The Township shall maintain a proper system suitable for determining the operation, maintenance, replacement (OM&R) and debt retirement costs for capital costs of the System and create a report of such costs annually.

Annually, the Township shall determine whether sufficient revenue is being generated for the effective management of the facilities and debt retirement. The Township will also determine whether the User Charges are distributed proportionately. If necessary, the SSCS shall be revised to insure proportionality of user charges and sufficient funds.

Sewer Service Charges shall be billed annually through the property tax statement and can be paid with taxes on an annual or semi-annual basis. Delinquencies shall be handled in the same manner as other unpaid taxes.

ARTICLE VIII
Penalties

Sec. 1. Upon determination that a User has violated or is violating applicable provisions of this ordinance or related permits, the Township may issue a Notice of Violation. At the next monthly meeting, the violator shall submit to the Township an adequate explanation for the violation and a plan for the correction and prevention of such occurrences, including specific actions required. Submission of such a plan in no way relieves the violator of liability for any violations occurring before or after the issuance of the Notice of Violation.

Sec. 2. Any violation is subject to a fine not exceeding $100.00 for each day in which a violation occurs after the monthly Town Board meeting when the notification was accepted. Fines will be made is a separate payment to the Township and collected at the next monthly meeting. Users desiring to dispute a fine must file a request with the Town Clerk for the Township to reconsider at their next Township monthly meeting. If the Township believes that the request to reconsider has merit, a hearing on the matter shall be held at that meeting.

Sec. 3. To collect delinquent Sewer Service Charge accounts, the Township may sue the violator in a civil action suit or levy a lien against the violator. The Township shall be entitled to collect from the violator its related attorneys' fees, costs and disbursements, as part of the delinquency. The violator shall be liable for interest on all balances at a rate of 10 percent annually, or the highest legal interest rate that may be charged, whichever is less.

Sec. 4. Any person violating any of the provisions of this Ordinance shall become liable to the Township for any expense, loss or damage occasioned by the Township by reason of such violation, including attorney fees.

Sec. 5. For purposes of this Article, "violator" will refer to both the occupant of the Property and its owner, in the event those are separate persons or entities.

ARTICLE IX
Validity

Sec. 1. This Ordinance shall be in full force and take effect from and after its passage and approval by the Township.

Sec. 2. All other ordinances and parts of other ordinances inconsistent or in conflict with any part of this Ordinance are hereby repealed to the extent of such inconsistency or conflict.

Sec. 3. Passed by the Supervisors of Zumbro Township on the 9th day of May, 2022.

/s/ Mark Fjelstad
Chairman

Attest:
/s/ Marcia Dworschak, Town Clerk

October 17 & 24, 2023

GUNDERSEN
ST. ELIZABETH'S HOSPITAL AND CLINICS

River Oaks at Lake Pepin

Come join our team at River Oaks at Lake Pepin.

We are currently hiring full-time and part-time Resident Assistants, Nursing Assistants and TMAs at our Lake City location.

Hire bonus potential to $5,000.

We are seeking Resident Assistants (RA), Nursing Assistants (CNA) and Trained Medication Aides (TMA) to join our team at our assisted living facility! You will work alongside other professionals to provide exceptional care to our residents.

We are currently looking for full-time and part-time employees for all shifts. Please join our team as we serve our residents with a commitment to compassion, excellence, and innovation.

Responsibilities:
- Assist the nurse to provide ongoing patient care
- Ensure residents maintain physical, mental, and dietary health
- Communicate resident health status to other medical personnel
- Medication administration and set up
- Resident documentation

Qualifications:
- Previous experience in patient care or other medical fields preferred but not necessary
- Experience with medication administration preferred but not necessary
- Basic knowledge of medical terminology preferred
- Ability to build rapport with residents
- Excellent written and verbal communication skills

Pay Scale: Up to $20 per hour.
